					Doe No.	Doe Age Yrs.	Doe Breed	Kid No.	EDER COMI Birth <u>Date</u> Mo. Day	Kids born 0=0 S=1 TW=2 TR=3 Q=4	S E X B D	RE	Weigh Day Mo. Day	Act. Wt.	Wt. per day of Age	50 Day Wt.	Adj. Factor	Adj. 50 Day Wt.	Adj. 50 Day Wt. Rat.					

Information from this form can help in selecting which buck or bucks may have better results on test. The form also allows the LEC to qualify a lower gaining buck based upon growth information from his contemporary sire group. If a buck has sufficient growth or does not have a contemporary group this form is helpful but unnecessary.
