## **Overview**

The Pennsylvania Department of Agriculture's Bureau of Farmland Preservation administers programs that protect prime farmland for future generations.

Pennsylvania is a national leader in farmland preservation with 6,148 farms and 619,191 acres protected through permanent agricultural conservation easements (April 2023). Public funds used toward easement purchase are a critical investment in the future of Pennsylvania's thriving \$132.5 billion agricultural industry. In addition to the economic benefit, the program ensures food supply for a growing population. Pennsylvania has some of the most fertile, non-irrigated soils found anywhere in the world. The pandemic and increased threat of climate change both put food security at a heightened level of awareness and further support the need to continue preserving farms. The latest USDA ag census figures indicate that the commonwealth lost roughly 6,000 of its farms from 2012-2017. [cp99042.pdf \(usda.gov\)](#) Development pressures will threaten prime farmland soils in the decade ahead. Farmland preservation mitigates these irreversible losses.

Thirty-four years after the first farm was preserved, the work to secure new easements continues, while the focus shifts toward the next generation. The Pennsylvania Farm Bill provides farmers with an extraordinary opportunity to develop transition, succession, and business plans through the Agriculture Business Development Center (ABDC). Preserved farms were targeted in 2022 with outreach on these services. The Farm Vitality Planning Grant, created as a function of the ABDC, has awarded \$1.95 million to 279 farm owners in fifty-six counties to date. Of the recipients, 111 were preserved farm owners. The bureau, in partnership with Bureau of Market Development, administered the program in 2022.

In 2022, farmland preservation highlights included:

- \$56 million in state, county and federal funds made available to purchase development rights on working farms;
- 170 farms totaling 13,069 acres preserved;
- Awarded \$7.85 million federal Regional Conservation Partnership Program (RCPP) funds from USDA's Natural Resources Conservation Service (NRCS) to install climate smart practices and assist with transition to organic preserved farms across the state;
- Administering Farm Vitality Planning Grant Program, with 74 grants distributed in 2022, including 24 preserved farms;
- Issuing 8 realty transfer tax exemptions to beginning farmers purchasing preserved farms;
- Awarding 48 century and bicentennial farm families.

## **Bureau Activities**

The bureau provides administrative and technical support to 58 counties that participate in farmland preservation programs and oversees the distribution of funds set aside for preservation purposes. Easement recommendations are reviewed for state board approval and guidance is given to counties, farm owners, local officials and attorneys on issues related to preserved farms. The stewardship responsibilities associated with a now \$1.8 billion public investment are mounting. This trend will continue over time.

In addition to administering the state farmland preservation program, the bureau is tasked with overseeing the Clean and Green preferential tax assessment program, the Ag Security Area program and Century and Bicentennial Farm program.

Farmland preservation and associated programs require extensive outreach to stakeholders and local officials. The network of local officials and boards is extensive. Public information and training efforts in 2022 are detailed on page four of this report.

Section 14.4 of Act 149 requires the State Agricultural Land Preservation Board to describe all relevant activities of the program for the preceding calendar year in an annual report.

The report covers the activities of the bureau and board from January 1 through December 31, 2022.

### **Program Implementation**

The Pennsylvania Agricultural Conservation Easement Purchase Program was developed in 1988 to help slow the loss of prime farmland to non-agricultural uses. The program enables state, county, and local governments to purchase conservation easements – often called development rights – from farm owners. The first easements were purchased in 1989.

Counties participating in the program have appointed local agricultural land preservation boards. A state board is responsible for distributing state funds, and approving and monitoring of county programs, boards, and specific easement purchases.

A farm's first step in becoming preserved is enrolling in an Agricultural Security Area (ASA), which protects the farm against local ordinances and nuisance lawsuits that would affect normal farming activities. ASA designation also provides special consideration in review of farmland condemnation by state and local government agencies. An ASA qualifies land for consideration under the easement purchase program at the landowner's request if the ASA has at least 500 acres enrolled.

In addition to being part of an ASA, farms considered for easement purchase must be in active agricultural use. Farms are evaluated by county officials per soil quality, stewardship, and development pressure. Each farm is ranked and placed on a waiting list per its ranking. Roughly 1,200 eligible farms remain on county backlog lists.

In 2022, the State Agricultural Land Preservation Board met six times to consider individual easement purchases submitted by 37 of the 58 counties participating in the farmland preservation program. The state board approved for purchase 170 easements of various ownership combinations from state, county, and local governments, as well as non-profits. Easements totaled 13,069 acres.

Two counties reached milestones during 2022: Union county celebrated 10,000 acres preserved in May and Lebanon county celebrated 20,000 acres preserved in September. Congratulations to both counties.

### **Funding**

Conservation easements allow property owners to retain title, pass the property to heirs, or sell the property, while still maintaining agricultural use of the land. Many farmers use the proceeds from easement sales to reduce debt loads, expand operations, or to help ensure the transition of the farm to the next generation. Farmers may choose to receive the proceeds from easement sales in a lump sum payment, in installments over a period of five years, or on a long-term installment basis.

The program operates on a calendar year with county governments. The state board is required to set a spending threshold by March 1 of each year. In 2022, the board set this amount at \$38 million and

county contributions totaled \$15.8 million. Each county received a grant amount and counties that contributed funds also received match. Along with federal funds, the total investment in farmland preservation for 2022 was \$56,034,246. Dedicated state funding sources include \$25.5 million annually from cigarette taxes and a variable amount of roughly 18.7% of the Environmental Stewardship Fund.

### **Public Information and Training**

Part of the bureau's commitment to protecting the state's farmland from development involves providing county programs with accurate information and resources to submit easement purchases to the State Agricultural Land Preservation Board for approval.

Bureau staff support the 58 counties with approved programs by interpreting legislation, reviewing county program manuals, providing sample documents, meeting with appraisers, reviewing easement documents and offering administrative guidance.

In 2022, the bureau conducted numerous individual training sessions for county administrators across the state. The bureau also participated in two virtual meetings conducted by the Pennsylvania Farmland Preservation Association; an organization comprised of county farmland preservation program administrators dedicated to promoting the interests of agricultural land preservation within the state. This outreach helps to ensure that county staff have a comprehensive understanding of the program and strengthens the relationships between bureau staff and county staff.

PA Farmland, a web-based program, automates and streamlines the process of submitting farms for easement recommendation, saving time and resources, and cutting administrative costs. The bureau is working with the department's Office of Information Technology to incorporate financial tracking, further reducing paperwork and improving efficiency. In addition, a project is underway to update the Geographic Information Systems (GIS) layer to accurately map preserved farmland.

In 2022, the bureau led two Assessor Association of Pennsylvania (AAP) Chapter meetings, Northeast Chapter and the Southwest Chapter. In addition, the bureau routinely engaged with Assessors Association of Pennsylvania's Clean and Green committee and the County Commissioners Association of Pennsylvania (CCAP) on program issues.

In 2022, the bureau participated in American Farmland Trust's (AFT) Farms Under Threat 2040 webinar. The bureau also engaged with AFT and other states on issues related conservation programs under the federal Farm Bill.

The bureau conducted a webinar with the Penn State Extension to discuss land access, farm transitions, competing land uses, and funding opportunities. In addition, the bureau led discussions on the Return on Investment (ROI) farmland preservation generates including economic benefits, food security, and environmental and resource conservation. These conversations will continue in 2023.

In 2022, bureau staff routinely engaged with farmers, local boards, and stakeholders on topics related to farmland preservation. As the program has matured and the number of preserved farms increased, the workload has shifted from securing purchases to protecting an investment. Competing land use interests and a growing population will continue to challenge easements going forward.

Utility scale solar development on farmland continued to be a hot issue in 2022. The department issued solar guidance in 2022 that encourages solar installations in locations compatible with farming, while recognizing that preserved farms are not permitted to engage in utility scale solar development.

Renewable energy and climate change are also at the forefront of state and national discussions. Agriculture's role in producing renewable energy and reducing the impacts of climate change is significant. Preserved farms are required to have a conservation plan that addresses all soil, water, and nutrient concerns on the farm. Many of the practices prescribed in conservation plans are also considered "climate-smart practices" with an important co-benefit of capturing carbon. Preserved farms are ideal for additional conservation investments, including climate-smart practices.

### **Federal Agricultural Conservation Easement Program**

The federal Agricultural Conservation Easement Program (ACEP) works through existing government programs, including the Bureau of Farmland Preservation, to help preserve prime and unique farmland. The program reimburses landowners up to 50 percent of the fair market easement value. This allows counties to preserve additional farms on their waiting lists that may have otherwise not been preserved with state, county, and municipality funding alone.

Since 1996, the Agricultural Conservation Easement Program (formerly known as the Farm and Ranchland Protection Program) has provided over \$37 million in funding to the state easement purchase program in Pennsylvania. This funding preserved more than 41,000 acres throughout the commonwealth. In 2022, USDA awarded \$296,065 in reimbursements for three farms totaling 346 acres in Blair, Cumberland, and Perry counties. The bureau signed a three-year program agreement with USDA-NRCS to continue accessing these funds.

### **Federal Regional Conservation Partnership Program**

In 2022, the bureau's Regional Conservation Partnership (RCPP) award for \$10 million from USDA-NRCS to enhance conservation efforts in the Kittatinny Ridge region was implemented. Partners include: Department of Conservation and Natural Resources, Department of Military and Veterans Affairs, Pennsylvania Game Commission, The Nature Conservancy, and four local land trust organizations. The RCPP was selected to enhance conservation efforts in twenty-two counties along the Kittatinny Ridge region. The proposal garnered the largest local contribution of any application nationwide, at roughly \$40 million. The bureau continues to lead meetings with stakeholder groups throughout the year.

The bureau was awarded a \$6.3 million (RCPP) contract from USDA-NRCS in 2018 to install best management practices on preserved farms in the Chesapeake Bay watershed. The award used state and county farmland preservation investments as the required match for funds to be disbursed under the USDA's Environmental Quality Incentives Program (EQIP). The primary focus area includes Adams, Cumberland, Dauphin, Franklin, Perry, and York counties. As of 2022, forty-four EQIP contracts were signed with an obligation of nearly \$4 million to implement best management practices on farms in all six of the targeted counties. The balance of funds being reserved for easement purchases and costs associated with developing conservation plans. All funds have been spent or obligated to date. The RCPP compliments the efforts of the State Conservation Commission in meeting statewide goals of cleaning up the Chesapeake Bay, as outlined in the federal Watershed Implement Plan (WIP).

In 2022 the bureau's 2022 RCPP proposal was awarded \$7.85 million to provide financial assistance to preserved farm owners to install climate smart practices on preserved farms and technical resources for transitioning to organic production.

### **Agriculture Business Development Center**

The Agriculture Business Development Center was created through Act 40 of 2019 to assist farm owners with business, succession, and transition planning. The legislation, a key component of the Pennsylvania Farm Bill, has provided \$1.95 million and has assisted 279 farm families with planning the future of their farms. The Bureau of Farmland Preservation assists the Bureau of Market Development in carrying out the mission of the center. The Farm Vitality Planning Grant Program provides direct grants of up to \$7,500 to farm owners for transition, succession, and business plans. The program awarded grants to 74 farm owners in 2022. Twenty-four of those recipients were preserved farm owners. The bureau targeted preserved farm owners with this opportunity by presenting to county staff and boards at meetings throughout the year. A grant round is currently under way in 2023.

In addition, eight farm owners have been certified by the bureau as 'qualified beginning farmers' for purposes of realty transfer tax exemptions for purchasing preserved farms.

### **Clean and Green Program**

The Pennsylvania Farmland and Forest Land Assessment Act of 1974, also known as the Clean and Green Act, or Act 319, protects farmland, forestland, and open space by allowing for land taxation per its value as used rather than the prevailing market value. The effect of Clean and Green on the overall farmland preservation effort is widespread, as affordable property taxes are essential to maintaining viable farms. In its over 40-year history, the program has been widely successful in achieving this goal.

Enrolled land is assessed per the income approach to land appraisal – the amount of income the land can produce at its highest and best agricultural use. The trend in recent years has been for the use values to increase. Counties may establish use values that are lower than the department's. The program has widespread participation, with 10.9 million acres enrolled statewide. The average reduction in fair market assessed value for enrollees is roughly 50 percent – providing an incentive to keep the land undeveloped.

The program is voluntary and generally requires a minimum of 10 acres remaining in one of three designated use categories:

- Agricultural use – land used to produce agricultural commodities commercially;
- Agricultural reserve – noncommercial open space land used for recreation and scenic enjoyment that is open to the public free-of-charge; and
- Forest reserve – 10 acres or more of forested land capable of yielding timber or other wood products.

Land removed from its designated category for a non-permitted use is subject to a roll back tax imposed for up to seven years, plus six percent simple interest. Certain land divisions and conveyances are exempt from roll-back penalties if the original use of the land does not change.

County assessment offices administer the program at the county level. The bureau provides for uniform interpretation of the Clean and Green Act among county assessment offices and distributes use values by May 1 of each year. County assessors are required to submit information annually on the extent of Clean and Green Act participation within their counties to the department. To facilitate this process, the

department surveys each county on its Clean and Green activity. The findings from this survey are the basis of this report. A copy of the survey form used to gather this information is included in the appendices as Exhibit A.

## **2022 Clean and Green Survey Results**

### ***Administration***

The 2022 survey forms were distributed to 67 counties and all responded to the survey. Sixty counties, or 90 percent, participated in the Clean and Green program. Table 8 (appendix) depicts those counties reporting participation in 2022.

Table 9 (appendix) summarizes the statistical data of participation. Counties reported 215,866 parcels enrolled in 2022, covering 10,917,928 acres.

Table 10 (appendix) indicates the acres terminated in each category of eligibility. The most common reasons for termination and removal of enrolled land include a split-off/subdivision between two and 10 acres, a change in use of the enrolled property that is inconsistent with the eligibility requirements, sale of enrolled property for residential development, establishment of a commercial activity not consistent with the allowable rural enterprise, and posting land enrolled in the agriculture reserve category.

Table 11 (appendix) lists the number of applications rejected per county for reasons such as not meeting requirements, too little acreage, late filing, non-conforming use, inability to verify ownership, or failure to show \$2,000 anticipated gross income. It lists the number of violations cited for reasons such as property split-offs, non-conforming subdivisions, change in use, transfer of land, and voluntary rollbacks. Far more applications are accepted each year than rejected.

Table 12 (appendix) lists the Rollback Tax Summary. It details the dollar amount received as rollback taxes and the dollar amount received as interest on the rollback taxes. Act 319 requires that all the interest received on rollback taxes be added to other local money appropriated by an eligible county for the purchase of agricultural conservation easements. If the county does not participate in the easement program, the interest shall be forwarded to the state agricultural conservation easement purchase fund. The interest on rollback taxes is intended to mitigate loss of farmland as it is used to fund easements purchased through the state farmland preservation program. In some cases, it is the sole source of county funds that are certified to the state for match.

Table 13 (appendix) lists the way Act 319 use values were determined by the responding counties. The county has the option of establishing a base year to calculate the preferential assessment, using the annual department-provided county-specific use values, or determining a lower county-specific use value. Use values may only be updated during a countywide reassessment or if the department's values drop below the values that were established in 2016 (year of a program amendment).

Table 13 also lists how counties assess the forest reserve average values. The department, with assistance from the state Department of Conservation and Natural Resources' Bureau of Forestry, provides values based on the average value of timber in a county and the average value of six timber types.

### **Century and Bicentennial Farm Programs**

Pennsylvania's Century and Bicentennial Farm programs demonstrate the importance of agriculture and the state's rural heritage and emphasize the commitment of Pennsylvania's long-standing farm families to preserving a vital element of the economy.

The Century Farm Program recognizes farms that have been in the same family for 100 years or more. Owners of farms recognized with this designation are presented with a certificate from the Pennsylvania secretary of agriculture. Information supplied by the applicants is filed in the archives of the Pennsylvania Historical and Museum Commission.

The Bicentennial Farm Program was created in 2004 to recognize farms that have been in the same family for 200 years or more. The Bicentennial Farm Program is ruled by similar standards to the Century Farm Program.

In 2022, the program recognized 48 Century and Bicentennial farms.

### **Land Trust Reimbursement Grant Program**

In addition to the state's Bureau of Farmland Preservation, nonprofit organizations called "land trusts" operate throughout Pennsylvania to ensure land with special natural or public value is not developed. To support this effort and accelerate the state's farmland preservation activity, Act 46 of 2006 established the Land Trust Reimbursement Grant Program.

The grant program authorizes the Pennsylvania Agricultural Land Preservation Board to allocate up to \$200,000 annually from the Agricultural Conservation Easement Purchase Fund for reimbursement of expenses incurred in the acquisition of agricultural conservation easements by land trusts. The grants cover expenses including appraisal, legal services, title searches, document preparation, title insurance, survey and closing fees.

Twenty-four land trusts are registered with the state board. As of December 2022, the board had awarded \$2,742,511 to 14 land trusts for expenses incurred through the preservation of 42,000 acres. The acreage preserved through this program does not count toward the state total of preserved land and farms.

### **Easement Program Participation**

The remainder of this annual report responds directly to the requirements of Section 14.4 (legislative report) of Act 149 of 1988, the Agricultural Area Security Law. Subsection titles are keyed to the numbered paragraphs of Section 14.4 and contain explanatory text that references tables and graphs included in the appendices.

### **Agricultural Security Areas**

Agricultural Security Areas (ASAs) strengthen and protect quality farmland from the urbanization of rural areas by protecting against local nuisance ordinances related to farming activities and providing oversight in certain cases of eminent domain. Enrollment in an ASA is voluntary, but a prerequisite for applying to the farmland preservation program. The most important step in preserving a farm begins at the local level when the ASA is formed.

The Agricultural Area Security Law, as amended April 13, 1992, P.L. 100, No. 23, provides that the Secretary of Agriculture shall be notified by the governing body within 10 days of the recording of an ASA.

#### ***Location***

Table 1 (appendix) lists all known ASAs alphabetically by county and township. A few townships are listed multiple times. This repetition was created from the township reestablishing their ASA over the years. For accurate tracking the township chose to list each enrollment separately.

As of 2022, a total of 1,003 ASAs have been formed in 65 counties in Pennsylvania.

#### ***Number of Acres***

In 2022, a total of 4,054,245 acres were enrolled in ASAs across Pennsylvania.

#### ***Conservation Easements***

##### ***Number of Acres***

In 2022, 13,069 acres were placed under agricultural conservation easements. A total of 619,191 acres have been placed under agricultural conservation easements in the commonwealth, since the program began under the authority of Act 149 of 1988. Under the current law, easements are purchased to protect the land in perpetuity.

Agricultural conservation easements preserved in 2022 are listed in Table 2 (appendix). The second and third columns list the landowner's name and the county where the easement is located.

##### ***Number of Easements***

At the end of the reporting period, 6,148 easements were purchased under the authority of Act 149 of 1988. While other agricultural conservation easements exist in the commonwealth, they have not been purchased under the authority of Act 149, and their existence is not reported to the agriculture department. The reported easements are specifically divided into 1,314 county-owned, 2,038 commonwealth-owned, 2,576 jointly-owned agricultural conservation easements, 144 multi-funded easements and 76 easements funded jointly between a county and non-profit or local municipality.

##### ***Number and Acres in Each Conservation Easement***

Table 2 (appendix) lists the number of, and acres for, each easement purchased during the reporting period. There were 170 easements totaling 13,069 acres purchased in 2022, shown in Table 2 (appendix). There were 166 lump-sum payment purchases, accounting for 98 percent of the easements. Most easement transactions were bargain sales, meaning easements were purchased at less than 100 percent of the appraised easement value.

There were four regular installment sales, roughly two percent of the total.

##### ***Number and Value of Easements Purchased***

The purchase price of each easement under the program this reporting period is given under column four of Table 2 (appendix). The next two columns of Table 2 present additional costs in acquiring the easements and the "Total Costs" column represents the sum of the three columns.

**1. Commonwealth-Owned Conservation Easements**

Seventy-one commonwealth-owned easements were purchased in 2022, covering 6,059 acres with an easement value of \$19,499,179.

**2. Joint Commonwealth/County-Owned Conservation Easements**

There were seventy-seven state and county jointly-owned easements covering 5,856 acres purchased in 2022. These easements totaled \$16,070,246.

**3. Multi-Commonwealth/County/Township-Owned Conservation Easements**

In 2022, twenty-two multi-owned easements totaling 1,113 acres and \$8,322,739 were purchased by the commonwealth, counties, and townships.

The typical transaction is a bargain sale, meaning the farm owner accepts less than the appraised easement value. In total, preserved farm owner donations have totaled in the millions of dollars and have been the single greatest source of leveraging funds for the program.

**Participating Counties**

All 58 counties with appointed boards and active programs were eligible to participate in the 2022 allocation of funds process and are listed in Table 3 (appendix).

**County Annual Appropriation**

The 2022 appropriations made by counties are listed under the second column of Table 3 (appendix), totaling \$15,853,116. The “Total Grant” portion is a weighted percentage of the Reality Transfer Tax in the state. The “Total Match” is based off the county contribution, capped at four times the average grant. There is an additional match for counties with ag production values greater than 2% of the state total. The “Redistributed” represents funds from counties with no farmland preservation program redistributed to counties with farmland preservation programs. Table 6 (appendix) shows total county appropriation amounts from 1989-2022.

**Characteristics of 2022 Preserved Farmland**

**Quality of Farmlands Subject to Easement**

Data was collected on the soil classification, crop types, acreages and yields, livestock types and numbers for each farm on which an easement was purchased from January 1 – December 31, 2022.

In summary, 13,069 acres of land were placed under easement during this reporting period on 170 farms.

Natural Resources Conservation Service (NRCS) soil classifications of this land are:

- Class I – 452 acres
- Class II – 6070 acres
- Class III – 3990 acres
- Class IV – 1395 acres
- Other Classes (V-VIII; ponds, wetlands or other lands not broken down by county) – 1,162 acres

Soil classes I-IV are well-suited for agricultural production.

Type of operations that were preserved in 2022:

- Crop – 94 operations (including vineyards, vegetables and Christmas trees)
- Livestock – 3 operations (including poultry, dairy, beef, goats, sheep and equine)
- Crop and Livestock – 73 operations

#### ***Nature and Scope of Development Activity***

The likelihood of development was generally moderate to high in areas where agricultural conservation easements were purchased. These areas were primarily zoned rural residential, agricultural or conservation district. Agricultural zoning occurred in approximately 75 percent of the areas under easement purchase. Public sewer and water is available or is planned in approximately 25 percent of the preserved area.

#### ***Conservation Practices on Farms Subject to Easement***

The following summary presents the frequency of use of conservation practices and best management practices on farms where conservation easements were purchased in 2022. All farmers have developed conservation plans for their farms and are in various stages of implementation. Biennial inspections conducted by the counties will report on the progress being made by farmers toward implementing their conservation plans. In addition, a growing emphasis is placed on compliance with Pennsylvania Clean Streams Law in that farms must have an Agricultural Erosion and Sedimentation Control Plan and Manure Management Plan. Practices maintain and improve soil health.

#### **SUMMARY OF CONSERVATION PRACTICES – 2022 PRESERVED FARMS**

<b><u>CONSERVATION PRACTICES</u></b>	<b><u>NUMBER OF FARMS</u></b>
Conservation tillage	28
Contour farming	48
Crop rotations	142
Crop residue use	93
Cover crops	63
Diversions/Terraces/Waterways	65
Streambank protection	7
Strip-cropping	21
Subsurface drainage	6
No-Till	73
Water control structures	8
Heavy Use Area	22
Animal waste storage	16
Nutrient management system	25
Pasture and hay land management	36
Prescribed Grazing	34

#### ***Recommendations for the Purchase of Agricultural Conservation Easements***

The total number of recommendations filed this reporting period by counties is the same as the number approved by the state board (170). None were disapproved.

## **Conclusion**

The Farmland Preservation Program has permanently preserved 13,069 acres of agricultural land on 170 farms over the past year. The total cost of this protection in state and county funds was \$42,393,313. The average price per acre was roughly \$3,200. Farmers have requested and gained municipal government approval of agricultural security areas protecting farming on more than 4 million acres of land. Pennsylvania contains more than 28.6 million acres, of which, nearly 7.3 million acres or about 25%, is farmland. Of the 58 participating counties, 56 counties, or 97 percent, appropriated local money for farmland preservation during the 2022 calendar year, amounting to more than \$15.8 million.

Pennsylvania's farmland preservation program thrives on partnerships between all levels of government and non-profit organizations and is a national model for success in land conservation. An estimated 1,200 eligible farms remain on county backlog lists following 2022. The mission of the program moving forward will be to continue preserving prime farmland and to safeguard a vast investment made in Pennsylvania agriculture. In addition, supporting programs like Clean and Green and the Agricultural Security Area continue to keep property taxes affordable and protect the rights of participating farm owners.

Pennsylvania's preserved farms will feed the nation and the world in years to come.

**State Agricultural Land Preservation Board**  
as of December 31, 2022

**FARMLAND AND FORESTLAND TAX ASSESSMENT  
COUNTY SURVEY**

The Pennsylvania Farmland and Forestland Assessment Act of 1974 as amended requires the Pennsylvania Department of Agriculture to promulgate statewide uniform rules and regulations for implementing the act. In order to ensure the rules and regulations are fair and consistent with the intent of the act, each County Assessor will provide the Pennsylvania Department of Agriculture with the following information.

Form AAO-91 is to be completed by the county assessor or the authorized representative for the calendar year specified above by January 31, 2023. Please provide as much information as possible. Use additional sheets if necessary.

- 1.) Is the act being used in your county? \_\_\_\_\_
- 2.) Total number of landowners participating as of the end of 2022 (cumulative)? \_\_\_\_\_ Total
- 3.) number of parcels enrolled as of the end of 2022 (cumulative)? \_\_\_\_\_
- 4.) Number of applications rejected during 2022? \_\_\_\_\_
- 5.) Number of acres terminated in each category (i.e. Ag Use, Ag Reserve, or Forest Reserve) during 2022:
  - a. Ag Use \_\_\_\_\_
  - b. Ag Reserve \_\_\_\_\_
  - c. Forest Reserve \_\_\_\_\_
- 6.) What was the most common reason for termination? \_\_\_\_\_
- 7.) Total dollar amount received in rollback in 2022? \_\_\_\_\_
- 8.) Total dollar amount received as interest on rollback in 2022?
  - a. Are you an eligible county under the Agricultural Area Security Law? \_\_\_\_\_
  - b. If yes, has ALL rollback interest been appropriated for the purchase of agricultural conservation easements under Section 14.1(h) of Act 43, Agricultural Area Security Law (county participates in Farmland Preservation Program)? \_\_\_\_\_
  - c. If no, has ALL the rollback interest been forwarded to the State Agricultural Conservation Easement Purchase Fund? \_\_\_\_\_
- 9.) Total acres enrolled **in each land use category** (cumulative):  
Agricultural Use \_\_\_\_\_ Agricultural Reserve \_\_\_\_\_  
Forest Reserve \_\_\_\_\_ **TOTAL ACRES ENROLLED** \_\_\_\_\_
- 10.) Which option best describes the Ag Use and Ag Reserve Use Values in your county?  
2022 use values provided by the Commonwealth  
Use values in effect on July 20, 2016 (Act 89)  
Other, please describe: \_\_\_\_\_

- 11.) Which option best describes the Forest Reserve Use Values in your county?  
2022 use values provided by the Commonwealth  
Use values in effect July 20, 2016 (Act 89)  
Other, please describe: \_\_\_\_\_
- 12.) Provide the year your county underwent its last reassessment. \_\_\_\_\_
- 13.) Is your county undergoing a reassessment in 2023? \_\_\_\_\_
- 14.) How many appeals involving Clean and Green applications or assessments were made to either the Board of Assessment Appeals or to the Court of Common Pleas during 2022?  
Board of Assessment Appeals \_\_\_\_\_ Court of Common Pleas \_\_\_\_\_
- 15.) Do you know the county's overall assessed market value (all properties in county), and the total value of preferential assessments (Clean & Green enrolled properties) in 2022? If so, please provide that information.  
a. Total County Assessed Market Value \_\_\_\_\_  
b. Total Value of Preferential Assessments \_\_\_\_\_
- 16.) Please provide the name, address, and phone number of the current county assessor.  
  
(printed name) \_\_\_\_\_ (address) \_\_\_\_\_  
(signature) \_\_\_\_\_ (city, state, and zip code) \_\_\_\_\_  
(telephone) \_\_\_\_\_ (email) \_\_\_\_\_
- 17.) Please name the person completing this form if other than the county assessor.  
  
(printed name) \_\_\_\_\_ (signature) \_\_\_\_\_
- 18.) Please provide the main contact person handling Clean & Green questions.  
  
(printed name) \_\_\_\_\_ (email and telephone) \_\_\_\_\_

**PLEASE RETURN BY JANUARY 31, 2023 TO:**

**Table 7      LAND TRUST REIMBURSEMENT GRANT PROGRAM**

**Background:** Act 15 of 1999 authorized the State Board to allocate up to \$500,000.00 from the Supplemental Agricultural Conservation Easement Purchase Account for reimbursement grants to be awarded among qualified land trusts. Act 46 of 2006 amended the Agricultural Area Security Law (P.L. 128, No. 43), re-establishing the Land Trust Reimbursement Program by authorizing the State Agricultural Land Preservation Board to allocate \$200,000 per year to the Grant Program. The program will reimburse qualified land trusts up to \$5,000 for expenses incurred in the acquisition of agricultural conservation easements. These expenses include appraisal costs, legal services, title searches, document preparation, title insurance, closing costs, and survey costs.

**Objective :** To accelerate the Farmland Preservation activity by developing partnerships with Land Trusts.

**Status :** 12/15/2022 State Board Meeting

**Land Trusts registered with the State Board (24):**

Adopt An Acre, Inc.  
Allegheny Land Trust  
Berks County Conservancy  
Brandywine Conservancy  
Central Pennsylvania Conservancy  
Centre County Farmland Trust  
Countryside Conservancy  
Delaware Highlands Conservancy  
Farm and Natural Lands Trust of York County  
French and Pickering Creeks Conservation Trust, Inc.  
Heritage Conservancy  
Lancaster Farmland Trust  
Land Conservancy for Southern Chester County  
Land Conservancy of Adams County  
Lebanon Valley Conservancy, Inc.  
Manada Conservancy  
Merrill W. Linn Conservancy  
Montgomery County Lands Trust  
Natural Lands Trust, Inc.  
North Branch Land Trust  
Pennsbury Land Trusts, Inc.  
Pittsburgh History & Landmarks Foundation  
Western Pennsylvania Conservancy  
Wildlands Conservancy

**Application Reimbursements:**

Adopt An Acre, Inc.	43 acres	\$9,879.50
Berks County Conservancy	168 acres	\$9,945.30
Brandywine Conservancy	4,381 acres	\$281,632.50
Central Pennsylvania Conservancy	849 acres	\$40,981.50
Centre County Farmland Trust	834 acres	\$29,100.74
Delaware Highlands Conservancy	307 acres	\$10,000.00
Farm and Natural Lands Trust of York County	5,586 acres	\$311,564.99
French & Pickering Creeks Conservancy Trust	24 acres	\$5,000.00
Lancaster Farmland Trust	21,798 acres	\$1,716,533.99
Land Conservancy of Adams County	7,271 acres	\$305,112.60
Lebanon Valley Conservancy, Inc.	416 acres	\$7,689.57
Montgomery County Lands Trust	57 acres	\$4,104.27
Natural Lands Trust	197 acres	\$4,988.78
Wildlands Conservancy	69 acres	\$5,978.00
<b>TOTALS (588 easements)</b>	<b>42,000 ACRES</b>	<b>\$2,742,511.74</b>
