

EMERGENCY LABORATORY REPORT

(Phosphatase / Drug Residue / Pathogens)

All positive official monthly and semi-annual test results are required to be reported to the Department of Agriculture **immediately**, by emailing this form, a copy of the positive test results and any supporting documentation applicable (i.e. bill of lading) to RA-AGLABRESULTS@pa.gov. Screening Facilities – A copy of this report must accompany the truck and producer samples to the confirmation location, be kept on file at the screening location, and be sent to the Pennsylvania Department of Agriculture with the BFSLS 477 Appendix N Bulk Tanker Positive Drug Residue Test Report immediately upon identifying a positive result.

These results include positive phosphatase, drug residue in raw and finished products and suspected and confirmed pathogens in fluid raw milk for human consumption.

In accordance with 7 PA. Code Section 59a.21 and 59a.408, you are hereby advised of the following positive result(s):

Phosphatase Fluorophos _____ Charm _____

Drug Residue Test Kit Used _____ Lot # _____

Pathogens Suspect Type(s) _____

Confirmed Type(s) _____

REPORTING INFORMATION

Producer Name _____

Producer Address _____

Finished Product ID Code _____

Producer No. & Herd No. / Sell By Code _____

Date Sampled _____ Temperature Control _____

Date & Time of Analysis _____ Temperature Control _____

RESULTS FOUND

Initial Result (Values / Interpretation) _____

Confirmatory Test(s) Used _____

Confirmation Results (Values / Interpretation) _____

RECORD KEEPING INFORMATION

Date/time Laboratory Identified Presumptive Sample _____

Date/time Laboratory Confirmed Sample _____

Date/time PDA was notified by phone _____

Date report was emailed _____

Approved Inspector or PDA Food Inspector for Permit _____

Permit Holder _____ BTU No. _____

Laboratory and FIPS code _____

Lab Director Signature _____
